

August 14-18, 2023 work will begin on a concrete treatment project on a section of the garage walls. Your storage locker must be emptied to allow the work crew to access the walls.

As a courtesy to owners, the HOA has made arrangements to have locker contents removed, palletized, and shrink-wrapped. The pallets will be stored in the garage and will be moved back into your locker once the work has been completed. The work is expected to last 5 days.

Please be aware that the pallets will not be locked up while they are stored in the garage and security will not be provided. The HOA will not be responsible for missing or damaged items. We strongly encourage you to remove any valuables from your locker prior to the August 12.

If you would like to the HOA to handle the moving and storage of your locker's contents, you will be asked to sign a liability waiver. You also have the option to decline the HOA's arrangements and handle moving and storage on your own.

**Please contact board member
Carolyn Yamaoka to indicate your preference.**
